

Paper Grading – Representative Trials

Trialists who are unable to participate in the selection process due to injury, illness or significant other commitments may request to be paper graded for selection into a representative team.

If the paper grading is requested due to an injury/illness a medical certificate will be required that must state when a return to play will be permitted.

To be paper graded we request that the player provide a self-reflection on three strengths and three weaknesses in their netball skills along with a brief player history outlining their previous netball experience both social/club and representative.

In addition, a review from a previous social/club or representative coach is to also be provided along with a skill rating from the coach.

If the player seeking paper grading has previously played in an Underwood Park Representative Team a recommendation will be submitted to the selectors as to where this player would fit with other trialists.

Both the player self-reflection and coaches review paper grading forms are to be returned to: upnarepnetball@gmail.com by the nomination closing date.
